Ribbon Pull Gift Card Holder

Measurements:

Kraft cardstock:

*Sleeve: 4" x 6" - scored at 2 3/4" & 5 1/2"

*Insert: 4" x 2 5/8"

Bride DSP: 6" x 1-1/2"

Instructions:

1. Put sticky strip on 1/2" tab of the sleeve cardstock and fold it up.
2. Place cardstock insert inside the sleeve.
3. Punch hole with 1/8" hole punch or Crop-a-Dile
4. Remove insert and turn it upside so the hole is at the bottom. Line up the hole on the insert with the hole in the sleeve and insert ribbon through holes.
5. Push the insert down into the sleeve, taking the ribbon with it (which wraps around the insert). Tie ribbon at the top. Pull up on the ribbon to reveal the gift card inside. The ribbon keeps the gift card from sliding through the bottom of the sleeve.
