Herringbone Technique

Supplies:

Mixed Bunch stamp set

Thank You Kindly stamp set

Riding Hood Red ink pad

Cherry Cobbler cardstock (3 1/4" x 4 1/4")

Pink Pirouette cardstock (1 1/4" x 4 1/4")

Basic Gray ink pad

Basic Gray cardstock (8 1/2" x 5 1/2")

Whisper White cardstock (3" x 4")

Big Shot Multipurpose Adhesive Sheets (3" x 4")

Twitterpated Designer Series Paper

Blossom Punch

Antique Brads

Directions:

1. Remove one side of the liner on the adhesive sheet and adhere to Whisper White cardstock. Use the bone folder to smooth over the adhesive sheet to ensure the adhesive transfers to the cardstock.
2. Peel back the liner on the adhesive sheet, revealing the cardstock covered in adhesive. Use 3/8" x 12" strips of coordinating designer paper to create the herringbone pattern. Start with the boldest pattern and lay out across the cardstock from one corner to the other.
3. Cut the end of the designer paper as straight as possible and adhere it perpendicular to the first piece. Cut again and add another piece on the other side.
4. The sheet is now divided into four triangular areas. Using a contrasting pattern of designer paper, line the inside and outside of each triangle.
5. Continue adding designer paper to each area until the cardstock is completely covered. Even when there is just a tiny spot open, put a piece of designer paper down and use the bone folder to go over the designer paper and make sure it is adhered to the cardstock.
6. Turn the cardstock over and trim the ends off of the designer paper with scissors.
7. Use as a background and embellish your card as desired.
